

"BUY AMERICAN" SURVEY
 JANUARY 29-FEBRUARY 1, 2009

Question W1

The government is considering making a major investment of taxpayer dollars to rebuild America's infrastructure and create new jobs. By infrastructure, I mean public works projects such as roads, bridges, railways, levees and dams. Would you favor or oppose a requirement that all construction materials for such projects- for example, steel for bridges- be made in America? Is that strongly (favor/oppose) or somewhat (favor/oppose)?
