

# Support for Buy American

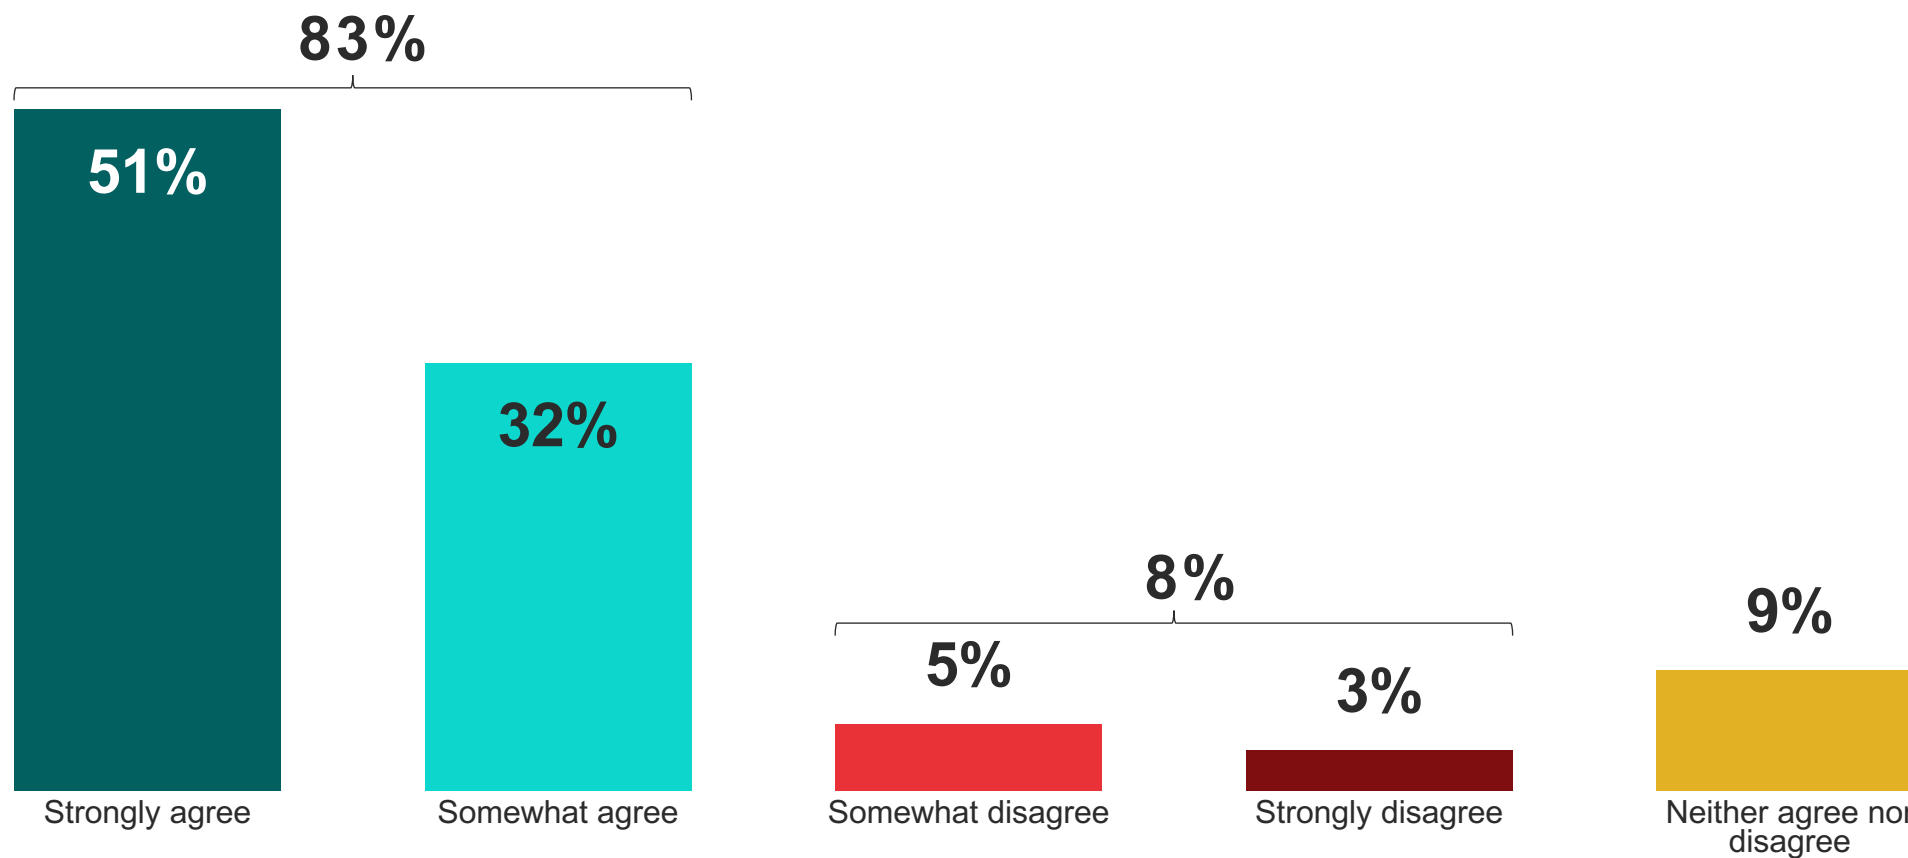

Survey Data Analysis Prepared for AAM

FEBRUARY 2023

SUPPORT FOR AMERICAN-MADE PRODUCTS

Ten times as many U.S. voters agree taxpayer dollars should be used for infrastructure projects using American-made products than disagree.

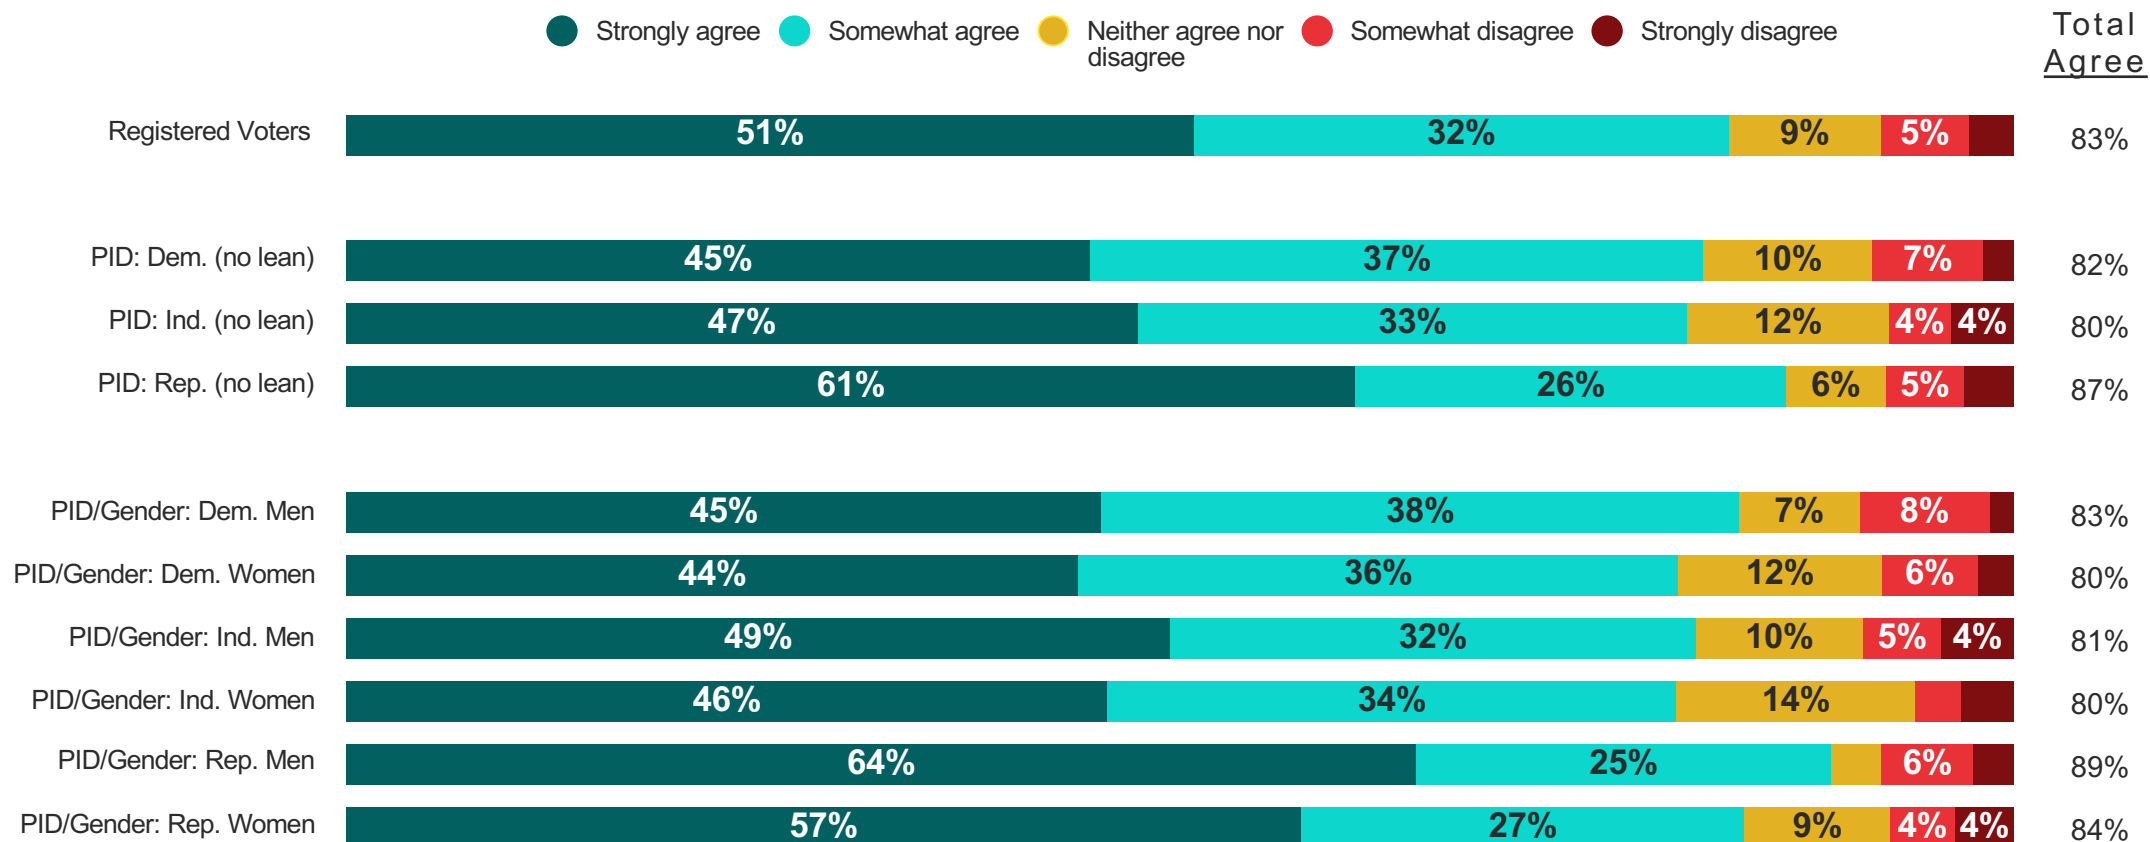

Do you agree or disagree with the following statement? *Taxpayer dollars should go toward infrastructure projects that utilize American-made products like iron, steel, and other construction materials versus products that are imported from foreign countries.*

POLICY CONSIDERATIONS

# The proposition of using American-made products for U.S. infrastructure projects is popular with voters across the political spectrum, especially Republicans.

Do you agree or disagree with the following statement? *Taxpayer dollars should go toward infrastructure projects that utilize American-made products like iron, steel, and other construction materials versus products that are imported from foreign countries.*
